## CHREVERENABLE AVERTO D'MORSE'S INVICORATING CORDIAL

TOR GENITAL DEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c.—The astonishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Lassitude, and General Prostration, or any of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable preparation ever discovered. In fact, as a remedy for the above complaints, it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sanction of the Medical Faculty. The Wondersell Vegetable PRODUCTION of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has cured, and is coustantly curing, these complaints—relieving the mental and bodily inespacity of the unfortunate sufferer, as

is constantly curing, these complaints—relieving the stal and bodily incapacity of the unfortunate sufferer, a following testimony of the names received will conclude:

mental and bodily ineapacity of the unfortunate sufferer, as the following testimony of the names received will conclusively show:

Dr. Woodward, of — Masrachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, precured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recomment it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certificates of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its pesitive and apparently miraculous virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS have not, in a single instance that has been authenticated, given their sanction to any other preparation for the above

It has, in many violent and desperate case-effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

effected radical curse, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION of those who have used this Extract is; "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merits, having tried various medicines sold for the same purpose, different Sarsaparillas, without deriving any benefit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial. I had no faith whatever of its benefiting me—but it has. I feel stronger, have had no emissions since, although it is not three weeks. I am satisfied that the half a dozen bottles I took will cure me."

Another says: "I had consulted several distinguished physicians. Some said I could not be cured; others prescribed this thing and that; but I found no relief until I produred some of your Cordial. I must say it completely cured me."

Another says: "I was surprised at the effect your Cordial.

Another says: "I was surprised at the effect your Cordial.

Another says: "I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

CAUTION.—Ask for Dr. Morse's Cordial, and take no other, as there are worthless imitations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but do good... Beware of all other Cordials, &c., and try only his. It is put up in pint bottles, with the words Dr. MORSE'S INVIGORATING CORDIAL blown on the glass. Price \$3 per bottle; two bottles, \$5; six bottles, \$12; and \$24 per dozen.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

DR. JOHNSTON,

Member of the Royal College of Surgeons, Londen, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the ears and head whon asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE.

TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary tabit, which rule both body and mind, unfitting them for ither business or society.

habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Deblity, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Heas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice se fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they aseribe to other causes the wasting of the frame, Papitation of the Heart, Dyspepaia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both Body and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS. GANIC WEAKNESS.

This grand and important Remedy has restored strength and vigor to thousands of the most debilitated individuals, many who had lost all hopes, and been abandoned to die. By its complete invigoration of the Nervous System, the whole faculties become restored to their proper power and functions, and the fallen fabric of life is raised up to beauty, consistency and duration, upon the ruins of an emacated and premature decline, to sound and pristine health. Oh, how happy have hundreds of misguided youths been made, who have been suddenly restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating

who have been studently restored to health from the devastations of those terrific maladies which result from indiscretion! Such persons, before contemplating MARRIAGE, should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness. Indeed, without this, the journey through life becomes a weary pilgrimage; the prospect hourly darkens to the view; the mind becomes shadowed with despair, and filled with the melancholy reflection that the happiness of another becomes blighted with our own. Let no false delicacy prevent you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gentleman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and again before the public, is a sufficient guaranty that the afflicted will find a skilful and honorable physician.

TAKE NOTICE.

It is with the greatest rejuctance that Dr. Johnston personal contents of the papers are sufficient properties.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his eard to appear before the public, desming it unprofessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the hands of those imprudent, boasting impostors—individuals destitute of knowledge, name, and character—pediars, shoemakers, mechanics, &c., advertising themselves as physicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in despuir leave you with ruined health to sigh over your galling disappoint ment. KRAUSER'S PATENT CLOVER-SEED HAR-

S BEFORE THE PUBLIC FOR THE FIRST TIME IS BEFORE THE PUBLIC FOR THE FIRST TIME

TS utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gathers
from ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentyacre field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low that every farmer will
have it, and pays the manufacturer 300 per cent.

We, the undersigned, do certify that we have seen Mr. Krauser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers' clover in this neighborhood—it is all that Mr. Krauser and his bills represent it to be. The farmers have given one-half for gathering and threshing.

This is to certify that Mr. G. J. Naylor has gathered clover off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two thirds for gathering and cleaning. I think his machine is first-rate, and answers all the purpose that is intended.

The following points out the profitable nature of the Harvester:

KRAUSER'S PATENT CLOVER-SEED HARVESTER.-We have conversed with a number of Farmers, and they are of opinion that there are at least 3,000 acres in each town-hip in Camden or Gloucester country, New Jersey. Admiting there are but 1,000, it is said that each acre will yield rom 1½ to 3 bushels. Reducing it to a certainty of yielding out 1 bushel per acre, what will it cost to gather and thresh

Terms of gathering, on shares of one-half; which would leave from the above calculation in the hands of the gatherer 500 bushels. Selling it at \$5 per bushel would be \$2,500; deducting expenses, \$500, would leave a balance in the hands of the gatherer of \$2,000.

In a country where there are but 8 townships, deduct 3 and unlitiply the \$2,000 by 5 would be \$10,000.

We believe the above calculation to be indisputable. From he numerous farmers with whom we have consulted, we the numerous farmers with whom we have consuited, we have found them to agree unanimously with the above cal-

culation.

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enterprising young man, of good business habits, a large sum of money could without doubt be realized from the sale of rights in the different States of the Union not yet disposed of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a better or more more paring business.

Swedish Mother's Hymn.

[Mary Howitt (gentle Mary Howitt, as she is sometimes called) has translated from a favorite Swedish author the following beautiful hymn, sung by a mother to her children just before the parting "good night:"]

There sitteth a dove, so white and fair, There sitteth a dove, so white and fair,
All on the lily spray,
And she listeneth how to Jesus Christ
The little children pray.
Lightly she spreads her friendly wings,
And to Heaven's gate hath sped,
And unto the Father in Heaven she bears
The prayers which the children have said.

And back she comes from Heaven's gate,

And brings—that dove so mild—
From the Father in Heaven, who hears her speak,
A blessing on every child.
Then, children, lift up a plous prayer:
It hears whatever you say—
That heavenly dove, so white and fair,
All on the lily spray.

### [From the Louisville Journal.] TO THE LONELY HEART.

BY MARY S. B. SHINDLER "Tis true thou art almost alone, high heart!
E'en 'mid a thronging, worldly multitude;
It is the wise man's fate to stand apart,
But thine is a delightful solitude!
For all thy world in beauty is arrayed
And crowded with bright things that cannot fade.

Thou'st many friends the earthly cannot see
Whose counsels kind thy lonely heart may cheer,
Whisp'ring in soft, angelic tones to thee,
They tell thee things none but the wise can hear;
Then, while 'tis thine such company to keep,
Mourn not the want of earth's companionship.

Yet, scatter'd here and there, thou still mayst find Some kindred souls amid the earth-stain'd crowd, Men, who were born to elevate mankind, Uttering pure thoughts in accents clear and loud, Then freely mayst thou, yearning heart expand, And soul be knit to soul, while hand meets hand.

Oh, be it mine above this world to dwell!

Be mine the friendship of earth's chosen few!

Let me receive within my heart's lone cell

None but the great and good, the wise and true!

And n.ay my life's ennobling effort be

Still to increase that glorious company. Louisville, August 21, 1852.

The Chaplain's Story. A clergyman, who was a chaplain of a little squadron stationed in the Mediterranean for five years, related the following anecdote, which oc-

curred during that time: The Commodore was a frank and generous man, who treated me with marked attention, and I used to preach in all the ships but one. This was a small frigate, and its captain was an irreligious and profane man. He used to say he wanted no Methodist parson for a pilot, and he embraced every opportunity of annoying me. Being a person of violent temper, he took offence, insulted the Commodore, who meant to send him home. When I heard of his intention, I waited 14th streets, between D street north and Ohio on the Commodore, and said I was come to ask a particular favor of him.

"That shall be granted. I am always happy to oblige you. What is it?" "That you will overlook the conduct of Cap-

tain S." said I.

"Nay, nay; you can't be serious. Is he not your greatest enemy, and the only man, I be-lieve, who does not wish to see you on board his "That's the very reason why I ask the favor, Commodore. I must practise what I preach.

"Well, well, 'tis an odd whim, but if, on reflection, I can grant your request without prejudice to his Majesty's service, I will do it." The next day I renewed my petition. "Well," said he, "if Captain S-

public apology, I will overlook his conduct."

I instantly got into a boat and rowed to the frigate. The Captain met me with a frown upon his countenance; but when I told him my l ness, I saw a tear in his eye, and, taking me by the hand, he said: "Mr. -,'I really don't understand your re ligion, but I do understand your conduct, and I thank you."

The affair blew over, and he pressed me to preach in his ship. The first time I went there the crew were dressed in their best clothes, and the captain at my side; I could hardly utter a word, my mind was so much moved, and so were the whole crew. There seemed to be more than ordinary solemnity among us.

That very night the ship disappeared, and not

soul survived to tell the tale. None ever knew how it happened, but we supposed, as there had been a gale of wind, she had foundered and went down in deep water. How cheering the thought that the men thus suddenly summoned into eternity, had listened to the blessed message of the Gospel, and that, too, under the circumstances which, through the bless-

ing of God, were so peculiarly adapted to prepare

their minds to welcome and receive it?

A TREMENDOUS REFORM. A most important evolution in table etiquette has lately been effected in England by the nobility, the results of which must shake the fashionable world to the centre, and very likely split uppe-tendom into two lower-fivedoms. The great cause of this so-cial earthquake is fish—fish, which heretofore "could not be eaten" except by the aid of a silver fork and a piece of bread. The great shock which will convulse society is occasioned by the volcanic action of the nobility aforesaid, who have established as a rule of good manners that fish may hereafter be eaten with a silver knife and fork. This is a highly important matter, but the liberty thus accorded must not be abused.

The knife and fork must be of silver. [Baltimore Times. The Freeman's Journal states that "less than five years ago, in July, 1847, his Holiness, Pope Pius IX, granted to the prayers of the Council of Baltimore that the blessed Virgin Mary, of Immaculate Conception, should be Special Patroness of the United States."
